

Paper Aeroplane Template

Name: _____ Date: _____

Cut out the rectangle, then crease along the lines in order. Print on lightweight paper.

--- Valley fold (fold towards you) --- Mountain fold (fold away)

Folding steps

1. Fold the sheet in half lengthways, then open it back up.
2. Fold the top two corners in to meet the centre crease.
3. Fold the new slanted top edges in to the centre again.
4. Fold the whole plane in half along the centre crease.
5. Fold each wing down to line up with the bottom edge.
