

## Pattern Recognition

1. What comes next?

\* o \* o \* ?

2. Find the odd one out:

(1) o (2) ^ (3) ^ (4) ^ (5) ^

3. Find the odd one out:

(1) o (2) \* (3) o (4) o (5) o

4. What comes next?

\* \* o \* \* ?

5. What comes next?

# # ^ # # ?

6. What comes next?

# ^ # ^ # ?

7. What comes next?

# ^ # ^ # ?

8. Find the odd one out:

(1) \* (2) \* (3) \* (4) # (5) \*

9. What comes next?

\* o o \* o ?

10. Find the odd one out:

(1) \* (2) \* (3) \* (4) \* (5) o

11. Find the odd one out:

(1) \* (2) \* (3) \* (4) \* (5) \*

12. What comes next?

# # ^ # # ?

## Pattern Recognition

**1. What comes next?**

\* o \* o \* ?

Answer: o (repeating pattern of \* and o)

**2. Find the odd one out:**

(1) o (2) ^ (3) ^ (4) ^ (5) ^

Answer: 1 (o is the only o among ^s)

**3. Find the odd one out:**

(1) o (2) \* (3) o (4) o (5) o

Answer: 2 (\* is the only \* among os)

**4. What comes next?**

\* \* o \* \* ?

Answer: o (repeating pattern of \* and o)

**5. What comes next?**

# # ^ # # ?

Answer: ^ (repeating pattern of # and ^)

**6. What comes next?**

# ^ # ^ # ?

Answer: ^ (repeating pattern of # and ^)

**7. What comes next?**

# ^ # ^ # ?

Answer: ^ (repeating pattern of # and ^)

**8. Find the odd one out:**

(1) \* (2) \* (3) \* (4) # (5) \*

Answer: 4 (# is the only # among \*s)

**9. What comes next?**

\* o o \* o ?

Answer: o (repeating pattern of \* and o)

**10. Find the odd one out:**

(1) \* (2) \* (3) \* (4) \* (5) o

Answer: 5 (o is the only o among \*s)

**11. Find the odd one out:**

(1) \* (2) \* (3) \* (4) \* (5) \*

Answer: 5 (\* is the only \* among \*s)

**12. What comes next?**

# # ^ # # ?

Answer: ^ (repeating pattern of # and ^)
